

March 17, 2021

Yesterday our provincial government reversed its earlier decision regarding permitted numbers for places of worship due to alarming Covid 19 variant increases in the Regina area. In light of this decision, and in the interests of erring on the side of caution for safety, **our Board of Elders have elected to delay resuming in person worship services** which had been scheduled for this Sunday, March 21st. Thus, for the time being and we hope only for the short term, we will be continuing with online only services and we pray that the concerning variant Covid numbers will be reduced soon as more people receive the vaccination. We will continue to do our best to share information on these matters as it becomes available.
